

Hoole Hornets

We were formed in 2006 when I took my team from another club where they were being overlooked as they were considered second rate and not played regularly. My vision for the team was to be inclusive and to allow all to play regular matches and to be trained to help them achieve their full potential.

We started at St Werburgh's and St Columba's Primary School in Hoole in the Under 9s. In the first year we exceeded my expectations for the team and won the Olympic Trophies U9's Shield finals which was held at Chester City's ground. We continued at the school field until we joined the Junior league in the U11's. You were then kind enough to let us use the field at Meadow Lane and we have been there happily ever since.

We play in Yellow and Black stripes and currently play in Division 2 of the Chester and District Junior league where I still give boys and girls the chance to train and learn to play football to a good standard. Next year we go into the U13's league and we hope to have 2 girls join us to play with the lads - permission permitting from the National Football league. This will continue my vision for the team to take them forward playing good quality football to a high standard with a place for anyone who wishes to play football.
